

Curly Wolf Lodge

Steeped in the historic spirit of Big Sky, Curly Wolf Lodge is a one-of-a-kind, three story retreat designed with a distinctly cinematic point of view. Warm and nostalgic, the cabin blends authentic ranch character with refined comfort, creating a private hideaway built for families, entertaining, and relaxed mountain living.

The lodge features four bedrooms, including three king bedrooms and a flexible room that can be configured with either two XL twin beds or one XL twin bed and one king bed. Additionally, the lower-level living room includes a king sleeper sofa for added flexibility and comfort. The main level centers around an open kitchen, generous living area, and custom dining table, while a private king loft suite occupies the upper level. Downstairs, the entertainment lounge features a full-size shuffleboard table and a large screen TV – an inviting secondary gathering space designed for families and groups.

Outdoors, an oversized private timber deck opens directly to the Montana landscape, complete with a grill for outdoor dining and a 4 person hot tub for relaxed alpine evenings. Inside and out, every detail has been thoughtfully composed to feel immersive, playful, and distinctly rooted in the spirit of Lone Mountain Ranch.
